Integrating Refugee Health and Well-Being

Landscape Analysis of Your Community

As mentioned during the 2nd Refugee Mental Health Webinar, conducting a Landscape Analysis of your community will help provide you and your office with more information regarding potential and pre-existing mental health providers and partners within your community. This exercise should be completed with feedback from a variety of different program areas within your office. **Please collaborate with your colleagues to answer all of the questions and send back to Annie Bonz upon completion (by Friday, December 12th).**
